

## AT EXPO Exhibitors at a Glance

[illegible]

## **Exhibitor Information**

### **AbleNet**

Sites Exhibiting

All sites

[www.ablenetinc.com](http://www.ablenetinc.com)

#### **Company Description:**

AbleNet has designed practical products and creative solutions for individuals with disabilities all over the world for 25 years. We offer a complete line of assistive technology products, including communication aids, switches, environmental control, computer access, and mounting devices. AbleNet also offers research-based special education curricula that meets state and federal mandates.

#### **Presentation Description:**

##### **Integration of AAC and iDevices in the Curriculum**

Learn how to integrate AAC solutions and iDevices in to classroom instruction for student success. A FREE communications app for individuals with complex physical disabilities will be shared, including mounting solutions and gaining switch access to iDevices to support classroom instruction.

### **Adaptivation**

Sites Exhibiting

All sites.

[www.adaptivation.com](http://www.adaptivation.com)

#### **Company Description:**

Adaptivation was founded in 1992. We design and manufacture, communication aids, switches, as well as other assistive technology for individuals with special needs. We specialize in providing simple and effective ideas for use with our technology. All of our devices and ideas are functional, practical, and fun.

#### **Presentation Description:**

For years, we have focused on using AAC devices to increase social interaction and making wants and needs known. Now, we know we must focus on meeting the educational needs of our clients. Come and see examples of how core standards in the areas of literacy, reading, and listening and speaking can be met using Lite technology and some imagination.

### **Attainment Company, Inc.**

Sites Exhibiting

All sites.

[www.attainmentcompany.com](http://www.attainmentcompany.com)

#### **Company Description:**

Attainment Company has been dedicated to helping people with cognitive and physical disabilities succeed in school, work, and life for over 30 years. From research-based curricula to our extensive line of highly acclaimed augmentative communication devices, our products have helped people meet the challenges of their daily lives with confidence.

#### **Presentation Description:**

AAC consumers and communication partners have continually looked for low cost options. The GoTalk NOW will help consumers transition from static display to a dynamic display device at a fraction of the cost. Following the sound principles within the AAC field just as the GoTalk did, this App will encourage consumers to interact in new and exciting ways with their communication partners. Turn your iPad into a GoTalk. Development takes us to NEW heights with the GoTalk NOW! Includes three styles of communication pages: Standard, Express, and Scenes. These pages are interchangeable to meet individual consumer needs across settings!

## ***Exhibitor Information***

### ***Augmentative Communication Consultants, Inc.***

Sites Exhibiting

All sites

[www.ACCLinc.com](http://www.ACCLinc.com)

#### ***Company Description:***

Augmentative Communication Consultants, Inc. (ACCI) distributes a wide selection of assistive technology products, educational software solutions, and speech generating devices. We offer in-service training sessions and product overviews. ACCI processes medical insurance claims for speech generating devices. Visit our website, [www.ACCLinc.com](http://www.ACCLinc.com).

#### ***Presentation Description:***

Need to stretch funds to purchase speech generating devices (SGD) for your students? The SGD may be a covered benefit when evaluated by an SLP and medical necessity requirements are met, along with completing required forms. Come and learn the basics of where to start, required documentation, and gain insight into what to include in your SLP report to get your request approved.

### ***Braille Depot***

Sites Exhibiting

All sites.

[www.brailledepot.com](http://www.brailledepot.com)

#### ***Company Description:***

The Braille Depot is a regional sales and service center for Index Braille embossers. We also provide support for the ALVA Line of Braille displays and the Kapten Mobility GPS.

#### ***Presentation Description:***

Not presenting.

### ***BrainSTEPS Program***

Sites Exhibiting

All sites

[www.biapa.org](http://www.biapa.org)

#### ***Company Description:***

BrainSTEPS is a Brain Injury School Consulting Program available to students, families, and districts in PA schools, grades PreK-12. We offer educational consultation and training on acquired brain injuries, including concussions.

#### ***Presentation Description:***

Not presenting.

### ***Crick Software***

Sites Exhibiting

Oaks

[www.cricksoft.com](http://www.cricksoft.com)

#### ***Company Description:***

Crick Software provides reading and writing software for students of all abilities. Our tools, Clicker, ClozePro, and WriteOnline are powerful writing tools designed to motivate and support students as they learn. We produce genuine UDL tools that bring out the potential in all, including struggling students and those with special needs.

This year we are excited to release Clicker 6, which offers greatly-increased student independence while making

it even easier to add appropriate layers of support for all. Whether you are working in an inclusive education or special needs setting, Clicker enables students to learn within an easy-to-navigate, motivating environment.

You will learn how to easily convert a JPG, PNG, BMP, GIF file into a 20 to 25 dot Graphic, then Brailled by the Phoenix Braille Embosser.

### ***Enhanced Vision***

Sites Exhibiting

All sites

[www.enhancedvision.com](http://www.enhancedvision.com)

#### ***Company Description:***

Enhanced Vision is a U.S. company and leading developer of assistive technologies for the visually impaired, including macular degeneration, glaucoma, cataracts, retinitis pigmentosa, and diabetic retinopathy. Low vision assistive technology enables individuals to read, write, and fully participate in life. Enhanced Vision has been in the forefront of the low vision field since 1996. The company furthered the low vision market with the introduction of DaVinci - a 3-in-1 Sony HD electrical video magnifier with text-to-speech OCR. Mobile Optical Services and Keystone Magnification Center are the exclusive distributors of Enhanced Vision products in PA.

#### ***Presentation Description:***

Hands-on product demonstrations of the latest technology in low vision. DaVinci is a 3-in-1 video magnifier with Sony HD and text-to-speech OCR. Merlin Elite, the latest addition to the Merlin family of desktop video magnifiers, comes standard with Sony HD and text-to-speech OCR. Transformer USB/VGA is a computer compatible video magnifier. This device is light weight and has a rechargeable battery. Pebble Mini is the latest 3" battery-operated pocket magnifier. It has the ability to capture and store approximately 1,000 images.

### ***Eschenbach Optik***

Sites Exhibiting

All sites

[www.eschenbach.com](http://www.eschenbach.com)

#### ***Company Description:***

Complete Line of Low Vision Aids and Services: Hand-Held Magnifiers, Stand Magnifiers, Spectacle Magnifiers, Telescopic Aids, Video Magnifiers, Contrast enhancing eyewear, Screen magnifier and audio software, lighting, and non-optical products. Complementary training services providing CE's for ACVREP

Featuring Optical School Diagnostic Low Vision Kit.

#### ***Presentation Description:***

### ***GW Micro***

Sites Exhibiting

All sites.

#### ***Company Description:***

GW Micro, a trusted pioneer in the accessibility field for more than 20 years, offers life-changing technology solutions for people who are blind or visually impaired, including Window-Eyes, GWConnect, ISci Lab Solution, the Readit Wand, and more!

#### ***Presentation Description:***

##### **"New and Emerging Assistive Technology from GW Micro"**

This session will concentrate on new and emerging technologies for the blind and visually impaired from GW Micro. Including the first scan-and-read system that can switch languages on the fly, voice access to STEM fields of study, and screen-reading technology using the latest version of Window-Eyes, running under Windows B. A large focus will be placed on how these new and emerging technologies can be integrated into the educational and professional environment to ensure successful outcomes. Come and learn about the latest assistive technology that can help make blind and visually impaired people successful in education and the workplace.

### ***HIMS, Inc.***

Sites Exhibiting

All sites.

[www.hims-inc.com](http://www.hims-inc.com)

#### ***Company Description:***

HIMS is a leading manufacture of assistive technology for blind students including Braille and Voice notetakers, Braille displays, DAISY players and portable and desktop video magnifiers. Our Braille Sense U2 and U2 QWERTY notetakers feature a 1GHz CPU, 32GB storage and built-in GPS with Google Maps. Braille EDGE 40 contains a built-in SD card slot, basic notepad features and iPad and iPhone connectivity. HIMS also features Book Sense portable DAISY player, portable video magnifiers including the New 5.0" HD LCD CANDY and CANDY GRIP as well as the popular SenseView LIGHT, DUO, PORTABLE and LifeStyle HD high-definition, PC-compatible desktop video magnifiers.

#### ***Presentation Description:***

Studies have shown that Braille literacy is directly related to educational achievement, professional outcomes and adult reading habits for the visually impaired. As iPods and iPads gain popularity among the blind due to their built-in accessibility features, consumers and agencies are moving away from the traditional notetaker in favor of these devices. While I-devices provide accessibility previously unheard of in mainstream products, they cannot replace the notetaker in regards to learning and using Braille proficiently. This presentation will discuss and demonstrate the necessity of notetaker use among students, and explore how the features of the HIMS Braille Sense products promote literacy, learning and successful educational and professional outcomes.

## ***Exhibitor Information***

### ***HumanWare***

Sites Exhibiting

All sites.

[www.humanware.com](http://www.humanware.com)

#### ***Company Description:***

HumanWare provides innovative speech, braille and magnification solutions, enabling people with visual impairments to attain their greatest potential. Products include BrailleNote Apex - digital braille assistant, Mountbatten electronic braille writer with audio feedback; Brailliant refreshable braille displays; Victor Reader Stream - palm-sized, digital audio book player/recorder; Stratus, accessible tabletop DAISY talking book player - play eBooks on CD, SD, or USB; Breeze talking GPS navigation aid; ViewPlus Tactile Graphics Embossers; Graduate portable video magnifier; SmartView 360 desktop electronic magnifier, PIAF Tactile Graphics Maker; IVEO - interactive tactile-audio learning system; ClassMate - standalone synchronized text and audio study tool.

#### ***Presentation Description:***

Utilizing iOS and Braille Learning Tools - Perspective and Practical Application in the Classroom Examining strengths and weaknesses of iOS devices, and braille technology when used separately in stand-alone mode, or together through VoiceOver. Combining these technologies provides ergonomic and accurate methods to quickly enter text in Grade 1 or Grade 2 braille, read eBooks in braille, access dictionary and thesaurus, and navigate web pages via the browser. Includes discussion and demonstration of using the iPad in conjunction with a digital assistant with a refreshable braille display and braille keyboard.

### ***Kurzweil / IntelliTools***

Sites Exhibiting

All sites

[www.cambiumtech.com](http://www.cambiumtech.com)

#### ***Company Description:***

The Kurzweil 3000 provides multi sensory access to any text or curriculum, including print, electronic, and web-based materials. It supports students who struggle with reading, writing, and note taking because of a learning disability or because they are learning English as a second language. Classroom Suite combines two educational paradigms - systematic, explicit instruction and a flexible tool to help students in grades PreK-5 achieve mastery in reading, writing and mathematics.

#### ***Presentation Description:***

This session will provide an introduction to the Kurzweil 3000 Web Edition with firefly, the first web-based reading program. It will also provide an overview of Classroom Suite and demonstrate how it can be utilized with the Unique Learning System.

## ***Exhibitor Information***

### ***LC Technologies/Eyegaze Systems***

Sites Exhibiting

All sites.

[www.eyegaze.com](http://www.eyegaze.com)

#### ***Company Description:***

The Eyegaze Edge empowers people to communicate with the world using only their eyes. Users can perform a wide variety of functions by simply looking for a fraction of a second at keys displayed on a screen. Programs include speech synthesis, word processing, environmental controls, full computer, internet and email access, music player, Kindle, a calculator, games, and picture-based programs for children. Can be used in any position including side lying, with glasses, contacts, droopy eyelids, extremely large or small pupils, and most nystagmus. Safe, accurate, and easy to use – our users are as young as 2 years old!

#### ***Presentation Description:***

**Eyegaze Systems: How They Work. What do you need to know.**

Eyegaze systems are becoming increasingly popular in the assistive technology field, with many options available. This session, presented by a registered nurse with over 20 years' experience developing and working with eye-operated systems for people with disabilities, will provide basic knowledge about this human-computer interface. Learn what you need to consider when an Eyegaze system seems to be the best solution. Topics include basic anatomy of the eye and how eye tracking is done; how various diseases, injuries, and medications can affect they eyes; and proven assessment methods that can help predetermine the efficacy of Eyegaze use. Questions are encouraged.

### ***Lightspeed Technologies, Inc.***

Sites Exhibiting

All sites

[www.lightspeed-tek.com](http://www.lightspeed-tek.com)

#### ***Company Description:***

Your voice. Their mind. A clear connection. Established in 1990, Lightspeed is the trusted provider in classroom audio.

#### ***Presentation Description:***

**Equal Access to Intelligible Speech in the Classroom**

Do you think it is possible to increase engagement, reduce discipline problems, enhance a student's attention span and at the same time increase your energy levels at the end of the day? The answer is YES, and the magic of it all, is that we have different sound solutions to meet YOUR different teaching styles. Come to our session to see our new technology for full classroom sound as well as our New FlexCAT – specifically designed for Differentiated Instruction. We will also show you how, through a few simple steps, you can record your entire lesson and post it wherever you would like for later listening by your students. Imagine, your students having your lessons on their iPods, or the web, with little extra effort on your end.
